

CANADIAN JOURNAL OF ANIMAL SCIENCE

VOLUME 42

June and December 1962

PUBLISHED BY THE
AGRICULTURAL INSTITUTE OF CANADA
OTTAWA, CANADA

SUBJECT INDEX TO VOLUME 42

	PAGE
Barley ration, The effects of level of feed consumption on rate and efficiency of gain by steers fed an all-.....	18
Broilers, Effect of selection for growth and for breast development on keel defects in Broiler weights and measurements taken over a 10-hour period, Note on Linear trends in.....	203
Buffers to ruminant rations, The addition of.....	252
Buttercup to cattle, The toxicity of tall	75, 82
	123
Camera used as a photo recorder, The movie.....	107
Carcass evaluation, Photography as an aid in.....	114
Cellulose, The effect of age, body weight, feed intake and adaptability of pigs on the digestibility and nutritive value of	167
Chicken broilers, A test of the reciprocal recurrent selection technique with.....	145
Chick feeding trials, The relation of covariance analysis to experimental precision and conclusions in.....	226
Chick rations, <i>Triticale</i> as a potential component of.....	158
Cockerels, The effect of cage housing on fertility, body weight and mortality of....	120
Dairy calves, Growth relationships from birth to 240 days of age and their associations with feed efficiency in	218
Equations for reciprocal conversions of starch equivalent and total digestible nutrient values.....	211
Eggs, stored at 70°F., among three strains of Leghorns, The interior quality decline of spray-oiled versus unoiled.....	88
Estrogen-like substances in legumes and grasses, The.....	129
Ewes and lambs, Grazing systems for.....	139
Feces fraction-collector for sheep, A.....	118
Fish offal silage as a source of protein in growing and finishing rations for bacon pigs, Acid.....	41
Fistula for digestion studies with pigs, A re-entrant.....	112
Gamma radiation on the utilization of wheat straw by rumen microorganisms, Effect of.....	215
Grass in the rumen, Rates of digestion of swallowed and unswallowed dried.....	49
Grazing systems for ewes and lambs.....	139
Growth relationships from birth to 240 days of age and their associations with feed efficiency in dairy calves.....	218
Hay high in silica, Some changes in the urine of sheep fed a.....	9
Hypoglycemics on blood sugar level of turkeys, The effect of oral.....	102
Keel defects in broilers, Effect of selection for growth and for breast development on	203
Legumes and grasses, The estrogen-like substances in.....	129
Linear trends in broiler weights and measurements taken over a 10-hour period, Note on.....	252
Liver vitamin A stores and weight gains in beef cattle following intraruminal injection or oral administration of vitamin A.....	110
Nutrient values, Equations for reciprocal conversions of starch equivalent and total digestible.....	211
Organic acids in the pig, The production of	55

	PAGE
Photography as an aid in carcass evaluation.....	114
Photo recorder, The movie camera used as a.....	107
Pigs, A re-entrant fistula for digestion studies with.....	112
Pigs, Acid fish offal silage as a source of protein in growing and finishing rations for bacon.....	41
Pig rations based on barley grown on Grey Wooded soils, B-complex vitamin supple- mentation of.....	183
Pigs restricted late in the fattening period, Efficiency of conversion of protein, energy and carbon in.....	176
Pig, The production of organic acids in the:	
I. The effect of diet on the proportions of volatile fatty acids in pig feces.....	55
Pigs to meet U.S. N.R.C. (1959) nutrient requirements with and without a margin of safety, Electronic computation of growing and finishing rations for.....	191
Pigs on the digestibility and nutritive value of cellulose, The effect of age, body weight, feed intake and adaptability of.....	167
Pullets on their performance during the laying period, The influence of restricted feed intake of confinement-reared.....	95
Ruminant rations, The addition of buffers to:	
II. Additional observations on weight gains, efficiency of gains and consumption by steers of all-concentrate rations.....	75
III. The effect of additions of sodium bicarbonate, sodium propionate, limestone and cod liver oil on apparent digestibility and nitrogen retention of an all-con- centrate ration.....	82
Selection technique with chicken broilers, A test of the reciprocal recurrent.....	145
Sheep, A feces fraction-collector for.....	118
Sheep, Effects of the temperature of the environment and the drinking water on the body temperature and water consumption of.....	1
Sheep fed a hay high in silica, Some changes in the urine of.....	9
Statistics in contributions to the "Canadian Journal of Animal Science", Suggestions for the presentation of.....	125
Steers fed an all-barley ration, The effects of level of feed consumption on rate and efficiency of gain by.....	18
Swine and rats, Supplemental fat as an energy source in the diets of:	
I. Food and energy utilization.....	23
II. Energy and nitrogen digestibility, nitrogen retention and carcass fat com- position.....	33
Swine feeds, Ingredient and processing interrelationships in:	
IV. Effects of various levels and kinds of fibrous diluents in finisher rations, fed as meal or pellets, on performance and carcass quality of swine.....	63
Swine, Rib and vertical numbers in:	
I. Variation observed in a large population.....	232
II. Genetic aspects.....	240
<i>Triticale</i> as a potential component of chick rations.....	158
Turkeys, The effect of oral hypoglycemics on blood sugar level of.....	102
Vitamin A, Liver vitamin A stores and weight gains in beef cattle following intra- ruminal injection or oral administration of.....	110
Wheat straw by rumen microorganisms, Effect of gamma radiation on the utilization of.....	215
